

Well, yeah. Since the early eighties, the Brazilian scene has never ceased to amaze us with its abundance of excellent music created in this sunny country. Yup, the Brazilian scene is very diverse, with a large number of varied genres and devoted, fanatic fans who enjoy a plethora of speed, thrash, heavy as well as more brutal, death and black metal bands. Extreme music is very popular in Brazil, no one can deny this simple fact. And thus, there pop up more and more bands, the bands that know the ropes when it comes to quality music. One of such bands is a doom metal band, **THE EVIL**.

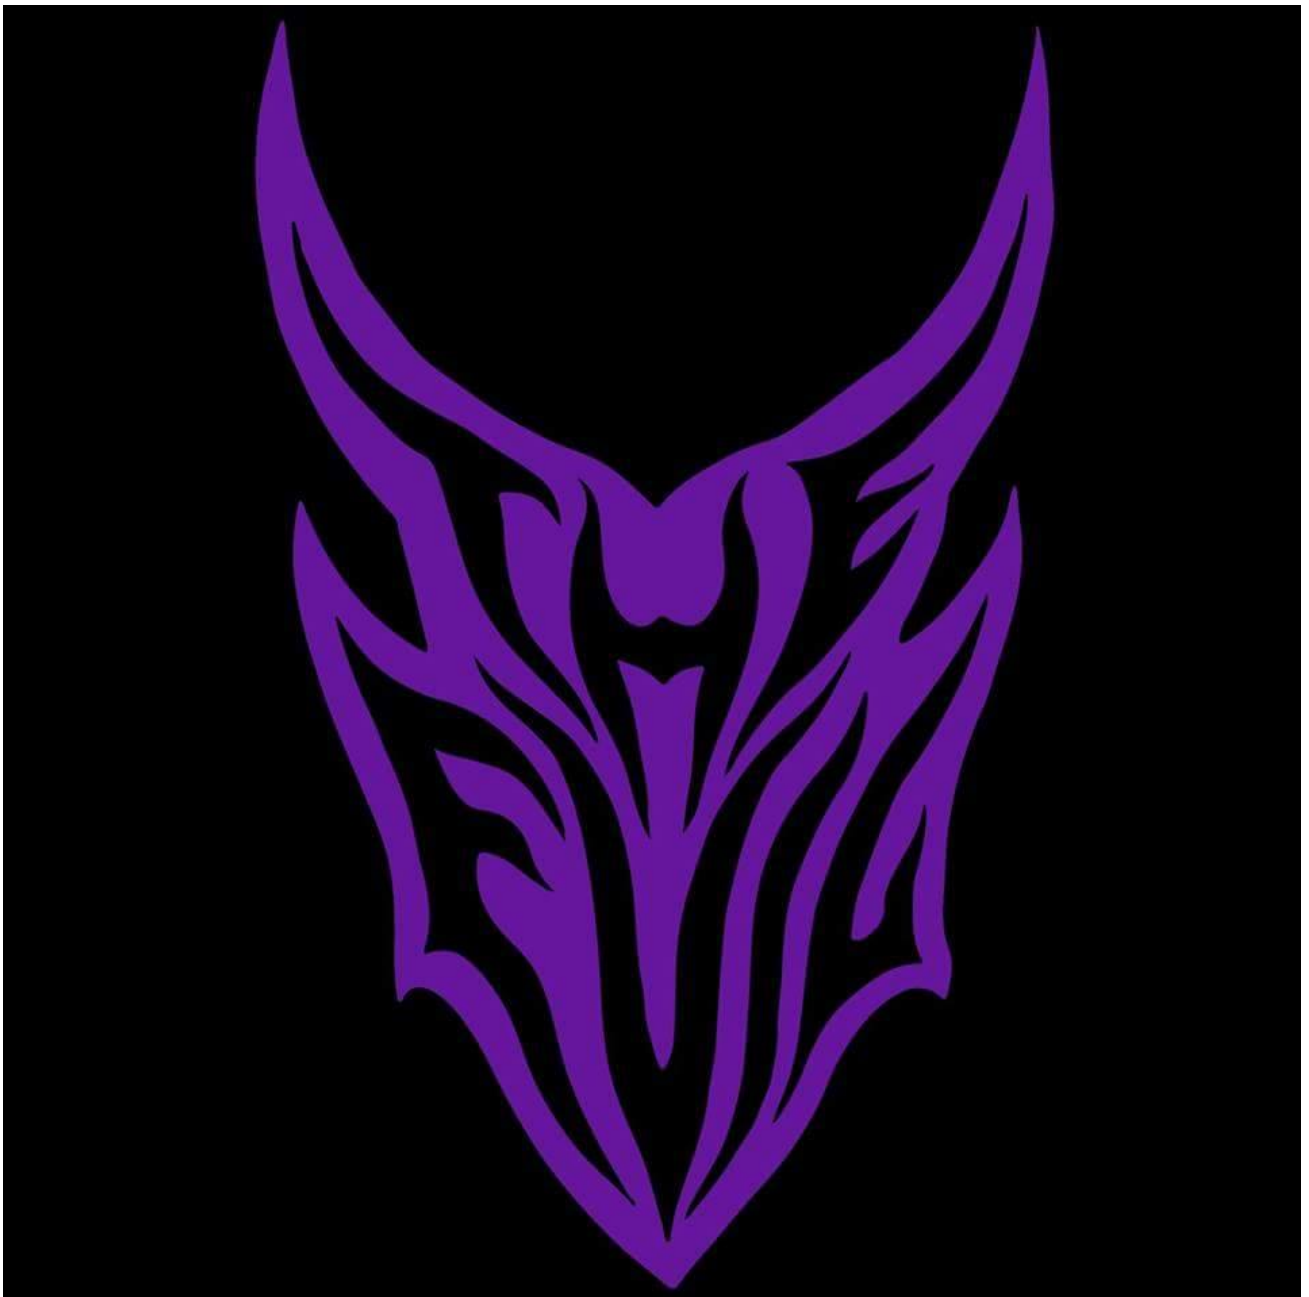

Evidence of evil on the face of the earth has never been so present. Every day thousands are killed, tortured, raped and robbed.....The greed of politicians; The perversion of the sadists; The indifference of the drug dealers; The falsehood of the priests; The wrath of the killers..... Daily examples that the DOOM is near!!!

Maybe a bomb do the service.... Maybe an epidemic.... Maybe our addictions... Maybe our own hands !!!

A barren land will be left for the cancerous who dare to survive...

And as long as the devastation and desolation consume the insignificant lives of the human race being extinguished, the sound of the Apocalypse will be propagated by the four horsemen:

1. Hello friend. Well, it's been a while since we've talked last. But as I can see you aint wasted your time at all, as band THE EVIL has unleashed two new recording. Thus, this seems like a good reason to talk, don't you think? But first off, I need to say I am happy you're musically active. Must be pretty exciting to be able to create and play music again, hey?

*Well, i never stopped at all. My bizarre mind is always thinking in music.... even if i am not in any band. Music is at least 50% of my evil person and life... so probably i will be doing this till the death arrives....*

2. Well, before THE EVIL came into existence, it'd been obvious there was something going on...or more precisely, before the About None Guilty ep (out on April, 3, 2017) you were busy with starting off a new, dark and very doomy and heavy band. Is that correct?

*Well, About None Guilty in reality was the first recorded song of the 6 musics that we made for the Debut THE EVIL album. Its the same, only released before for the people out there know the band. The band THE EVIL started to compose in 2012 with me IOSSIF (guitars) and MISS AILEEN (vocals). We wanted to make Haunted and Macabre music and started to compose some tracks like Silver Razor and Screams..... but it was a lot difficult to find a drummer and a bass player to play the kind of music we wanted.... Everyone here wanted to play in some Death, Thrash or Grind band.... no one was into EVIL DOOM OCCULT METAL at that time.... so it delayed a bit to get the right persons. But with SAENGER (drums) and mainly THEOPHYLACTUS (bass) the line up was perfect. Everyone in the band loves DOOM and MACABRE slow music.*
