And there it is! Far unpublished on CD album of Szczecin (Poland) MORBID VISION "Visions of the Morbid Rites". The material is enriched in two demos, including "Demonstration of Force" from 1991 and two tracks from Demo 92 in a completely different, unknown versions. 19 destructive, thrash/death metal songs. A piece of awesome oldschool metal. If you do not remember this great metal band, but you do like BETARYER, PROTECTOR, VADER, MORTAL SLAUGHTER or MERCILESS DEATH, you will not be disappointed!
