Although most prominently focusing on an icy atmosphere, there is a fair amount of diversity within the Québécois black metal scene. Although featuring members of familiar bands within the scene such as Akitsa, Theyre and Utlagr, this is the first time I've heard a band from the province focus on a proto-black sound. Even if Beast Within mostly gleans their sound from Celtic Frost, their riffs and songwriting abilities really rubs me in the right way. Although a mere two songs, the Adversity/Servitude 7" makes a big impact.
