It's Time to Face the Doomsday debut, the shit-hot CHILDREN OF TECHNOLOGY here crank up everything that made that record so special to so many listeners worldwide: more metal, more punk, more darkness, more fun, more crushing production, more crazed performances, more of MORE. Literally, everything on Future Decay is turned up to "11," and then beyond! It's often been said that CHILDREN OF TECHNOLOGY are the metalpunk analogue of the Mad Max films. With Future Decay, however, they mainline into musical form every cult '80s movie to feature bikers, zombies, and zombie bikers and set them across a bleak, bombed-out landscape that's their own choosing rather than one that's already been created. And with it, CHILDREN OF TECHNOLOGY paint a portrait of Future Decay
