BLASPHEMY

Fallen Angel of Doom...

ANTI-GOTH 069 | COMMAND 008

LP / CD / MC

The Black Metal genre was only around for a few years before BLASPHEMY convincingly took it to levels of extremity that are still unmatched to this day! Originally released to an unsuspecting audience in 1990 when the underground scene was moving away from Black Metal; "Fallen Angel of Doom...." was an unprecedented statement of evil intent, and also a perfect reflection of the band members' unhinged lifestyles. Presented here is an official repress of this timeless album under Nuclear War Now!

Productions and by the band themselves via Ross Bay Cult.
