Please be informed that by the end of this very year you can expect a reedition of one of the most interesting classic death metal albums recorded back in the early 90s. CELEBRATION came from the city of Bialystok and brought us their "Dead Bodies Massacre" debut full-length album in the year of 1991. Right now, this material gets re-released and comes with a number of unique bonus tracks from their "Beyond the Grave" demo 1990, as well as SZAFOT's previously unreleased tracks from 1987/1988. SZAFOT was the first band of Jacek "Kacper" Kasperski (guitars and vocals in CELEBRATION). The cd's booklet is going to contain plenty of the band's unpublished pictures as well as Jacek's comments on the CELEBRATION's early times.
