KAT`s guitarist Piotr Luczyk "I am very happy these titles are going to be available again through Metal Mind Productions as this label means top quality."

"Metal and Hell" is KAT`s debut album from 1986 and is an English version of later released "666". "Oddech wymarłych światów" was originally released in 1988 and "38 Minutes of Life" is band`s first live album (was out in 1987) and features the live performance when KAT supported Metallica. "Mind Cannibals" is band`s eighth full length album recorded in 2005 and will be reissued as "Mind Cannibals - A.D. 2016". All reissued materials are original and not remastered.
