BULLDOZER "Final separation" gatefold LP (magenta vinyl) Limited edition (only 150 copies) on dark magenta vinyl.

The 2nd full length by Italy's Metal masters BULLDOZER! Originally released in 1986 and never repressed on LP for 30 years, here it finally comes in a new edition specially remastered for vinyl directly from the studio reels provided by the band and re-packaged in a gatefold sleeve with unreleased photos and lyrics (scans of the original typed drafts). "Final separation" is a devastating follow-up to their cult debut "The day of wrath" and adds a strong Speed/Thrash Metal vibe to their well-tested Black Metal meets dirty R'n'R tinged aggression! All in all, this is another good confirm of the goodness of the Bulldozer's sound back in the 80s and it's good to recommend it to the old school fans of this lethal black/speed combination. For all its length, the nastiness of the speed metal and the brutal influences of bands like Venom and Motörhead collide to create another high impact effort, in pure 80s style!! RIDE HARD... DIE FAST!!
