If you want death metal in it's finest, then you would love the fact, that one of the most controversial bands, DEICIDE, are coming with their new album Overtures of Blasphemy to decimate the fortress and crush your heads! Speaking of blasphemy and devil, on the other hand are standing DIABLO SWING ORCHESTRA, with their blend of many different genres, which is a thing not only for fans of avant-garde metal.

Following the massive response from the last summer, the forest fairy MYRKUR returns to our festival to conquer the sceptics yet again! The soft appearance can indeed be hiding for a dark soul... The quick succession also serves as a mean of apology for the unfinished show from this year.
