

Well, how not to get excited when your hungry hands can grab stuff like this, huh? "Mindnumbing Pleasure" is pure speed metal with a huge dose of MOTORHEAD's madness injected in it. This cd's content is a truly jaw-dropping sort of experience...it literally kicks ass, really hard! No way it is possible to stop this madness. All is very speedy, all is very catchy and very headbanging inducing, so to say.

Way to go. I'm very happy that there are so many bands hailing the old school metal way of life.

Loud night is what the 80s metal is all about and the tribute to MOTORHEAD.

LOUD NIGHT formed in 2107 and some of the members were involved in RAMMING SPEED (who formed in 2005).

Well, to tell you the truth, I would say that this newer band is even better than the RAMMING SPEED itself.
