When “War In Heaven” entered my hands for the first time, I was listening to this album without mercy. It spend few weeks inside my player. After listening to it so many times, this material still smashes me into a million pieces. “War In Heaven” is one of that CDs, to which you come back very often. Why? Because it’s an awesome music, and what’s more played on the old-school tradition, and that matters to me, because that’s what I like the most. If we also add the fact, that between that dead sounds there is a lot of Devil- we’ve got a honey for my dark soul. EVIL MACHINE is created by non-random crewmembers from and old, Metal Guard: Hal (Vader), Cyjan (Dead Infection), Cyprian (Conquest Icon) of finally possessed by hell Seba Semihazah. On the recording session appeared also some well-known guests : Cezar from Christ Aony (he made an awesome job in song “diabeł”), Seth (Behemoth) oraz Peter from Vader. That smelling with hell’s stench album contains of ten, destroying everything old-sounding compositions. There are a lot of memories from 80’s here. Echoes of Celtic Frost, Hellhammer, old Kreator, Poison, Venom or Sodom. Could it be better? Gentlemen doesn’t try to be original, but they play what’s in their heart, and as they’re an old veterans, so they’re totally into old metal classics. Also surprising is very archaic, dirty sound. Material was recorded in a different studios, but for the final mix in went to Hertz Studio, which is known from clear, steril sounding productions. This time material haven’t been marked with this stigma and kept dirty, basement sound. In the same moment it sounds very selective.

It’s also worth mentioning, that next to the author’s songs of bend there are two marvelously played cover. First one is “Power From Hell” with total vocal’s of Peter (Vader), and second one comes with repertoire of NWOBHM Gods- Venom “Die Hard”. And also here band reduced to dust everything that’s holy. I’d like to hear more of music like that. If from some unexplainable

reasons you haven't had a chance to have a closer look at this hell's stench creation, I recommened to listen to it really quickly, because later there will be scretching teeths and ripping hairs. I wish to EVIL MACHINE, that their ass-kicking debut will have a vinyl version. "War In Heaven" deserves that kind of release.
