

Took me a long time indeed to get this **Scaregod** in the cd format...well, I am the guy who prefers traditional media only so I waited patiently to get my hard copy. And on top of that, wasn't that easy to get this cd in Poland at all, despite the fact a considerably big label released this album in our country. Surprisingly, the label which has a lot of experience with our metal music market (including **BEHEMOTH**'s albums) has had no intention of proper promoting this (undeniably) good album spawned by **BETRAYER**

. Yes, I want to say that

BETRAYER

`s

Scaregod

passed virtually unnoticed. A grave mistake really, as, in my view, this is one of better albums to have been out in Poland over the last couple of years. I will tell you something else: this stuff should be sent over to

DEICIDE

and

MORBID ANGEL

to remind them how old-school death metal needs to be performed. I was also surprised not to see

BETRAYER

scheduled for any tour promoting

Scaregod

. No

BETRAYER

at

Mystic Festival

either...does it mean our own bands are to be treated shitty in our own country? Does this album need to be re-released by a Western label so that a full potential of

BETRAYER

`s music can be fully appreciated? Such a situation must be a truly painful experience for musicians. The good thing is

BETRAYER

are die-hard, well-seasoned guys who do what is to be done and don't give a damn. They don't give up but keep on fighting and creating excellent death metal. I hope some big, Western label sees the potential in

and their future becomes brighter than it is surely now. I also hope

Scaregod

gets re-released on vinyl, as this band deserves the noblest of media. And don't forget that their legendary

Calamity

was out exactly 25 years ago. Hope to see

BETRAYER

performing live shows to commemorate this very special anniversary!!!!
