

The legendary material recorded by Mike Browning`s crew – INCUBUS. This band did just three tracks and split up. Yet, these three tracks are the very quintessence of the 80s metal. This is undoubtedly the world`s most impressive death metal art. At the same time, this stuff has been bootlegged incessantly, like nothing else in the metal world before and after. After many years, we finally are offered an official reedition of the demo in the form of a vinyl 7 ep and an amazing digi pack with a poster and an official tee shirt. There are also lyrics, some rare photos and a long article written by Incubus` drummer Mike Browning (MORBID ANGEL, NOCTURNUS, etc.). This stuff was remastered in DM6 studio in Chile. And this release is a post-mortem homage paid to Incubus` founder (ex MORBID ANGEL) Sterling Von Scarborough (R.I.P.) It is really hard to believe this demo was recorded 28 years ago. Time has not touched this material at all. It still is a powerfully sounding piece of Satanic Death Metal. Pity INCUBUS split up so fast. One can hear, in these three tracks, some real potential. I would love to listen to their full length if it ever had been recorded. Well, this demo was re-released by Vic Records as CD and a 7 inch. Yes, this means people still want INCUBUS` music. Why, maybe Mr. Browning is going to resurrect this band in the future? That`d be awesome, for sure. but, in the meantime, let`s enjoy these unholy cuts: „God Died On His Knees”, „Reanimator's Mutilations” and „Engulfed In Unspeakable Horrors.” <http://proselytism.bandcamp.com> LWS
