CEREMONIAL TORTURE from Finland is a one man band and another project of Goatprayer Doom Predictor (WITCHCRAFT, MOONFALL, UNDER HORNS to name but a few). So far, all these bands are damn BEHERIT worship, but this time, we are offered something different. This is the homage paid to old Greek scene, especially VARATHRON or NECROMANTIA. And the sound is really better. The bass lines are strong, the use of keyboard is not explicitly sharp; all this demo is mid-tempoed, which, I am sure of it, makes this stuff even more tinted with old Greek music. Majestic Dragon Moon features four track plus a short intro. This is a nice listen, this demo and I do think you people ought to get this material. This guy hasn't said his last word, that's for effin sure. Still new bands to surprise us, ok! CEREMONIAL TORTURE c/o Antti Suomalainen, Maariankatu 18 A, 39 49400 Hamina Finland.
