This is a 2017 reedition of Mexican cult OLD CRUCIFIX`s debut full length album (they have 3 other releases under their belt).

What we deal here with is very aggressive Black/Crust/Thrash in, of course, the old school vein. This tape looks awesome, man,

I can only tell you that Destruction Records know when they are doing.

This release is strictly limited to 200 copies and I am more than happy I got one in my collection. Why? Coz "Demons Curse" is one hell of an album – filthy, raw sound and relentless as fuck!

This will fuck up your mind, buddy!

A nice listen. Not to be missed! Recommended!
