“Lord of Burning Abyss” was an amazing demo, no doubt. What we have here, is another promo of these Chileans and it features just 2 songs and an intro taken from a cult “prince of darkness” horror film.

The music itself is a very energetic, devilish black/thrash recorded in 2021, but in all honesty, this kind of filth could have been recorded 30 years ago as well.

That’s why I love this old school kind of stuff but lo and behold who this lone-up consist of. Lord Hellavenger, that is an ex member of cult COMMUNION, who joined forces with the possessed souls of the very powerful and agile FORCE OF DARKNESS.

Oh, man, these “The Primordial Flame” and “The Forbidden Shrine Consecration of Doom”

stand for pure madness. A truly infernal diatribe. This stuff is a jaw-dropping sort of release, no joke here. Not nuff, that's for sure. You just want more and more.

Hellavenger want us to wait for more and that's ok coz this year both demos of them guys have been re-pressed onto cd...HELLAVENGER are warming up, big time, and I am more than sure we`ll hear from them shortly!!! Recommended.
